QUICK PACKING / UNPACKING TIPS:

- ❖ Set aside items you may need throughout the pack and load (minimal kitchen ware, bathroom, or other personal items). Advise the crew that these items should be packed and loaded on the last day.
- ❖ Make sure paired items and sets are together so they are packed in the same box, this will ensure an easier unpacking process.

WHAT IS SHUTTLE SERVICE?:

A shuttle vehicle is that additional equipment provided by the carrier, usually smaller than a tractor-trailer, used to transport items from a dwelling or structure to a tractor-trailer, or from a tractor-trailer to a dwelling or structure, when such equipment is required due to a narrow street, low overhang, bridge or other physical constraint. An additional shuttle charge will be added to the final charges via the tariff based on the actual weight of the shipment.

DAMAGE? In the rare event that damage occurs, please rest assured that Merchants will work with you to handle the situation in a prompt and fair manner.
